Major purposes

(and real "rumors" and doubts)

I 1. Support official "lone assassin - no conspiracy" line

III 3. Justify itself & larger investigative apparatus in Congressional history by pretending it has "new evidence and ~~is~~ with petty criticism of federal agencies & Warren Commission

3. Cannot say whether tie & collar damage do or ever can coincide with one knot to determine
C. Covered Humes false testimony on entry point fatal head shot
1) Humes told W.C. at autopsy
a) Autopsy photographs show "large gaping wound" to skull
(Baden & Lattimer both covered. He testified before Lattimer, who never showed him photograph)

1) Dr. Perry, in charge of tracheotomy, tested it & chest metal showed in post operative X-ray - WH 6 H 101
(I made this bullet hitting this bone & just inside did not.)
